- Regulations that ensure the required identity and purity characteristics.
- If a pharmaceutical product does not meet established quality standards, it may lack the desired therapeutic effect, lead to toxic and adverse reactions and be a tremendous waste of financial resources.
 - The quality control department holds special importance in pharmaceuticals. The quality of the drug product may be affected by initial raw materials, the manufacturing process, packaging, transportation and storage.

Subject: Invitation as Resource Person for Two Week Certificate Programme.

Dear Sir,

It gives me a pleasure to invite you as Resource Person to conduct a 02 Week Certificate Programme on **"Drug Quality"** for B Pharmacy Second Year Students. Your valuable words would enable our students to gain knowledge from your expertise and experience.

The date for the Programme to be conducted by you will be from 03/10/2019 to 17/10/2019 (30Hrs). The session will begin at 08:00am daily. It has been a practice to arrange such programme in this institute for 90 minutes duration followed by a question answer session of 30 min.

Kindly communicate your acceptance at earliest. This will enable us to prepare for a successful programme.

Anticipating a favorable reply from your end.

Thanking you,

Yours sincerely,

Dr. Prakash Katakam
