The country celebrates Teachers' Day on September 5 every year. Students honor and express their gratitude to their teachers on this day. On this day, Dr. Sarvepalli Radhakrishnan, the second president of India, is honored. The most essential thing he did was teach. He was a brilliant academic philosopher, one of history's greatest diplomats, a researcher, and the president of India. In honor of this exceptional educator, his birthday is now recognized as Teachers' Day. On 5th September 2019, our students organized a celebration at our department. The entire event was organized by Mr. Jamil Ahmed and faculty co-coordinators. In order to demonstrate how much we value our professors; we came to the conclusion that students should be in charge of teaching. According to Indian culture, we must always start with prayer. On teacher appreciation day, 35 persons participated in total. From 10:00 am to 2:00 pm, the students' designed itinerary comprises lecture and practical. In order to provide lectures on the course material for the current semester, students showed up to class. On this particular day, our lesson started at 10:00 am as normal. All of the students serving as teachers sat in the staff room when there were no lectures. The rest of the students were studying hard without being disruptive or acting out in any other way. We wanted to provide pens to all the students who took part as a way of saying thank you.
